

JUMPSTART FOUNDRY

Jumpstart Foundry is a seed-stage healthcare innovation fund with one ultimate goal: **Make Something Better.**

Jumpstart Foundry invests \$150K in 15-20 healthcare startups from around the country each year. Jumpstart then guides and supports entrepreneurs using a systemized, step-by-step scaling process designed to help each business reach and surpass their goals.

The JSF fund now has over 100 companies in its growing portfolio and was reported as Tennessee's most active VC firm in January 2020 by CB Insights.

BOSTON TECHNOLOGY RESEARCH

BOSTON, MA

Software platform that provides a suite of tools to establish and maintain the regulatory compliance of computerized systems in a healthcare setting.

CHATOR

ATHENS, GA

Integrated platform to help operating rooms perform at their best by providing scheduling, messaging and advanced analytics tools for OR managers.

DRUGVIU

NEW YORK, NY

DrugViu is expanding the dataset on health, medication outcomes and clinical trials to include people of color by collecting verified medication outcomes and side effects from communities of color and recruiting them for clinical trials.

ELLY

LOS ANGELES, CA

Elly is the world's first empathetic audio companion for people impacted by cancer. Elly sends daily motivational and educational content to users and also provides sessions where users can learn and grow through other patients' relatable experiences.

HELLOPATIENTS

SPRINGFIELD, IL

An Intelligent Patient Engagement platform to enables patient awareness of healthcare costs by providing payment transparency. HelloPatients assists providers in automating patient payments, allowing a patient to clearly understand what they owe the provider and then customize a payment plan accordingly.

KAMANA

RICHMOND, VA

A SaaS platform eliminating inefficient and expensive processes used to manage healthcare credentials, onboarding, and job placements. Kamana provides nurses and allied healthcare professionals a universal credential management and sharing platform.

LENA

HOUSTON, TX

A Health Companion for seniors. Lena provides a text-based companion to combat social isolation and loneliness during recovery. They provide patients with needed support at home while also extracting patient data from text interactions to loop in the care team at the right time.

LIVE CHAIR

ELKRIDGE, MD

Live Chair has created a network of community partners powered by capabilities needed to reach, engage, and encourage health plans' hardest-to-reach members. Starting with barbers in African American communities, LiveChair barbers help their clients better manage chronic health conditions and live a healthier, happier life.

MEDAUX

NEW YORK, NY

MedAux helps hospitals guide patients using automated just-in-time instructions and checklists pre, peri, and post-procedure. In partnership with a hospital, MedAux works designs proprietary follow-up pathways specific to each procedure to automated patient-provider communications.

MEDIEN

SEATTLE, WA

Medsien helps practices rapidly implement Chronic Care Management programs for their patients without incremental administrative work. Medsien's turnkey solution can enable rapid implementation of profitable solutions for practices and meaningful care and support for patients with chronic conditions.

MIMIJUMI

NASHVILLE, TN

Mimijumi is a natural and intuitive baby bottle that promotes a better and more natural feeding experience for mom and baby.

OMNICURE

SAINT LOUIS, MO

Omnicare, "The Mobile Tele-ICU", connects bedside providers with experienced intensivists any time, anywhere. Omnicure's low-cost solution leverages every day, off-the-shelf mobile technology allowing any hospital to implement tele-ICU services for their patients.

RXTHAT

CASTLE ROCK, CO

A mobile platform that empowers patients and healthcare providers with accurate drug price comparisons between multiple pharmacies in real-time. RxThat's goal is to improve the health of patients by making prescriptions more affordable and clinical operations more efficient.

SAMARITAN

SEATTLE, WA

Samaritan has designed smart wallets for and with people experiencing homelessness. High-utilizer case managers and partnered CBOs use the smart wallets to engage at-risk individuals they seek to serve. Patients set housing and health goals alongside their CM and then can access financial and social capital from the community to successfully complete action steps in their care plan.

SPELLBOUND

ANN ARBOR, MI

SpellBound uses augmented reality technology to more effectively engage patients with medical treatment in hospitals. Their immersive experiences can reduce the perception of pain and anxiety associated with a procedure, engage patients in motivating rehabilitative movement, and provide 3D simulations for educational purposes.

WELNYS

NEWARK, NJ

Welnys works directly with HR benefits teams to power corporate wellness programs and help streamline the coordination of those programs. Welnys also works with payers and benefits brokers to serve their clients with world-class wellness resources.
